The sum assured is typically 2 to 5 times the employee's annual fixed salary, depending on grade, as notified at the time of onboarding.

6. Claims Process

6.1 Cashless Claims

- Present the e-health card at any network hospital and inform the insurer's TPA desk at least 48 hours before planned hospitalization, or within 24 hours for emergency admission.
- The hospital's insurance desk will coordinate directly with the TPA for pre-authorization and settlement.

6.2 Reimbursement Claims

- For treatment at a non-network hospital, the employee must pay upfront and submit original bills, discharge summary, and claim form to HR/TPA within 30 days of discharge.
- Reimbursement is typically processed within 15-21 working days of submission of complete documentation.

7. Eligibility for Probationary Employees, Interns, and Contractors

Probationary employees are covered under GMC and GPA from the date of joining. Interns and contract staff are covered under a limited accident policy only, unless otherwise specified in their engagement letter.

8. Addition and Deletion of Dependents

New dependents (e.g., newborn child, spouse post-marriage) may be added within 30 days of the qualifying life event through the HR benefits portal. Requests outside this window will be considered only at the next annual renewal, except in case of new employee onboarding or childbirth.

9. Exit and Continuation of Coverage

Insurance coverage ceases on the last working day of employment. Employees may be offered the option to port their GMC coverage to an individual retail policy with the same insurer, subject to the insurer's terms and portability regulations, at their own cost.

10. Policy Administration

This policy is administered by the Human Resources Department in coordination with the Company's empaneled insurance broker. Terms are subject to the master policy document issued by the insurer, which will prevail in case of any conflict. Queries should be directed to benefits@nexoraglobal.com.
